Event: BSides Boulder 2024

Date: June 14th, 2024; more details at <https://bsidesboulder.org>

Welcome to the 5th annual BSides Boulder event – a growing community of cybersecurity enthusiasts, professionals, and novices alike. Nestled in the scenic surroundings of Boulder, Colorado, our event has served as a platform where budding talents meet seasoned experts, all united by a passion for cybersecurity.

At its core, BSides Boulder's mission is to foster connections within the local cybersecurity community. Over the past four years, we've been dedicated to presenting attendees with educational talks about the latest vulnerability exploits, cybersecurity defense techniques, and cutting-edge tools. Our commitment to education and knowledge-sharing ensures that our community stays informed about what is happening in the dynamic landscape of cybersecurity.

Last year, we proudly hosted 84 attendees, marking a milestone in our journey. Beyond the talks, we also held a workshop focused on detection tools and methodologies – a testament to our dedication to hands-on learning and skill development. As we gear up for another year, we anticipate an even larger turnout and a richer exchange of ideas.

This is where you come in. Your support can propel this event to new heights, ensuring that the local cybersecurity community in Boulder continues to thrive and innovate. Enclosed in this packet, you will find details on various sponsorship levels and the associated benefits. By partnering with us, not only will you be positioning your brand at the forefront of the cybersecurity conversation, but you'll also be playing a pivotal role in nurturing a community that is the backbone of digital safety and innovation.

Sincerely,

The BSides Boulder Team

What is Security BSides?

Each BSides is a community-driven framework for building events for and by information security community members. The goal is to expand the spectrum of conversation beyond the traditional confines of space and time. It creates opportunities for individuals to both present and participate in an intimate atmosphere that encourages collaboration. It is an intense event with discussions, demos, and interaction from participants. It is where conversations for the next big thing are happening.

History of Security BSides

BSides was born in 2009 when a number of quality speakers were rejected from a mainstream conference, not due to lack of quality but rather lack of space and time. Our mission is to provide people with options by removing common conference barriers and by providing more options for speakers, topics, and events.

2009: Launched in the United States.

2010: BSides breaks into the global space with the first European event.

2019: More than 60 events worldwide in the US, Europe, Hong Kong, & Australia

2020: First BSides event in Boulder Colorado

2022: First in-person BSides event in Boulder Colorado

Thousands of people have attended and written about their experience at BSides events. Read more at: <http://www.securitybsides.org/Media>

While every BSides event is unique, here are some things that don't change:

- Community organized, volunteer driven, and corporate funded
- Provide a forum to expand the spectrum of conversation
- Focused on giving a voice to the "next big thing"

Security BSides is a Global Community, here are resources for more information:
